NEW BUSINESSES

Help in a Time of Need

DML international relief to IDPs of Anglophone crises during Covid-19 in Cameroon results to community transformation.

In the just ended quarter we did more of prayer walks, awareness creation that led to 2 workshops coming up in the month of December. We just began training sessions on starting and running effective Village Saving and Loans (VSL) groups. The training lasted for 8 weeks. We have 2 groups of 15 members each.

For the Adventist youth's savings and loans group, we just started a micro business training with 25 members that will also continue for 8 weeks.

Moreover, all those who completed the first VSL International training with the US office and other AIPS in Africa, we took a

commitment to ameliorate the aspect our structure and to offer prospective partners effective training before going into loans. We also began a more robust plan for encouraging members to save.
